

# SLC Fire Department Serves Salt Lake City

SLC Fire Protects Your Capital City.

October 2021

***Prepare • Respond • Impact***

Salt Lake City Fire protects Salt Lake City.

Salt Lake City Fire Department works every day of the year to protect our capital city, Salt Lake City, Utah. All lives, all structures: SLC Fire serves them.

**SLC Fire has a plan for combatting fires and protecting life and property for all kinds of structures in our city. Structures that hold and shape our lives, culture, and history.**

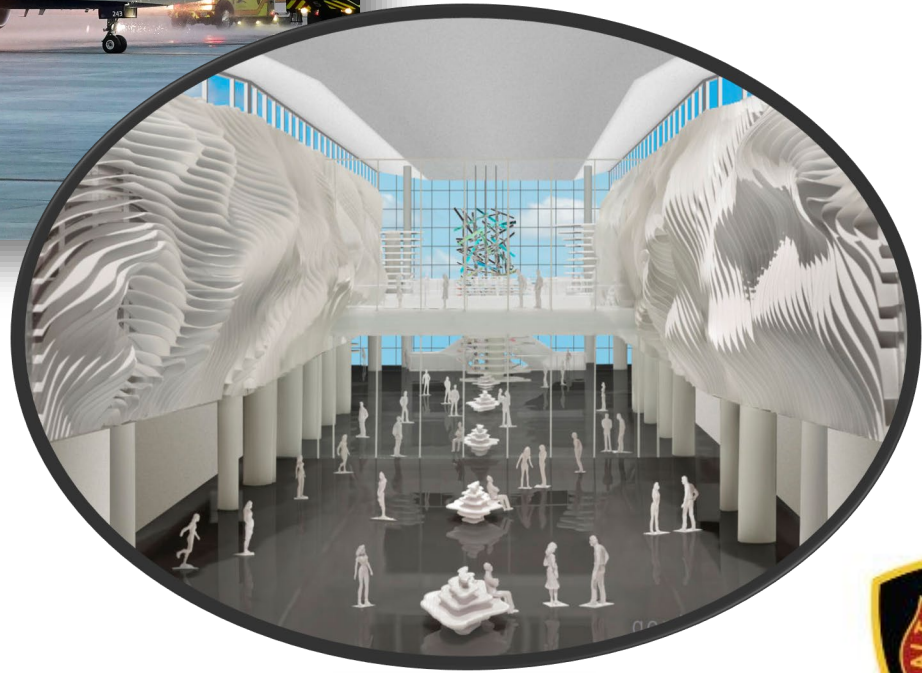

**Salt Lake City Fire has a plan for fighting fires that happen in high-rise buildings in Salt Lake City. A high-rise building is six or more windows high. The tallest building in SLC currently is the Wells Fargo Building at 26 floors.**

We protect the SLC Airport.

ARFF (Airport Rescue and Fire Fighting) apparatus serve the airport.

**When your family goes to the State Fair, SLC Fire is on standby to help in the event of a fire or medical emergency.**

**Gas stations and other places that have hazardous materials on site are a particular challenge for firefighters but don't worry, we have specialists that can safely handle the emergency.**

If you should go to a ballgame at the Bee's Stadium, SLC Fire is right next door to help if needed.

**Mayor Mendenhall and her staff can work safely at the City and County Building knowing that SLC Fire are ready to respond if needed.**

When the Utah State Legislature gathers to serve, SLC Fire is nearby just in case.

**The SLC Capitol Building is protected with a fire and life safety plan  
which SLC Fire will enact if needed.**

Salt Lake City Fire protects houses of worship in the city.

When you gather, we're on standby just in case.

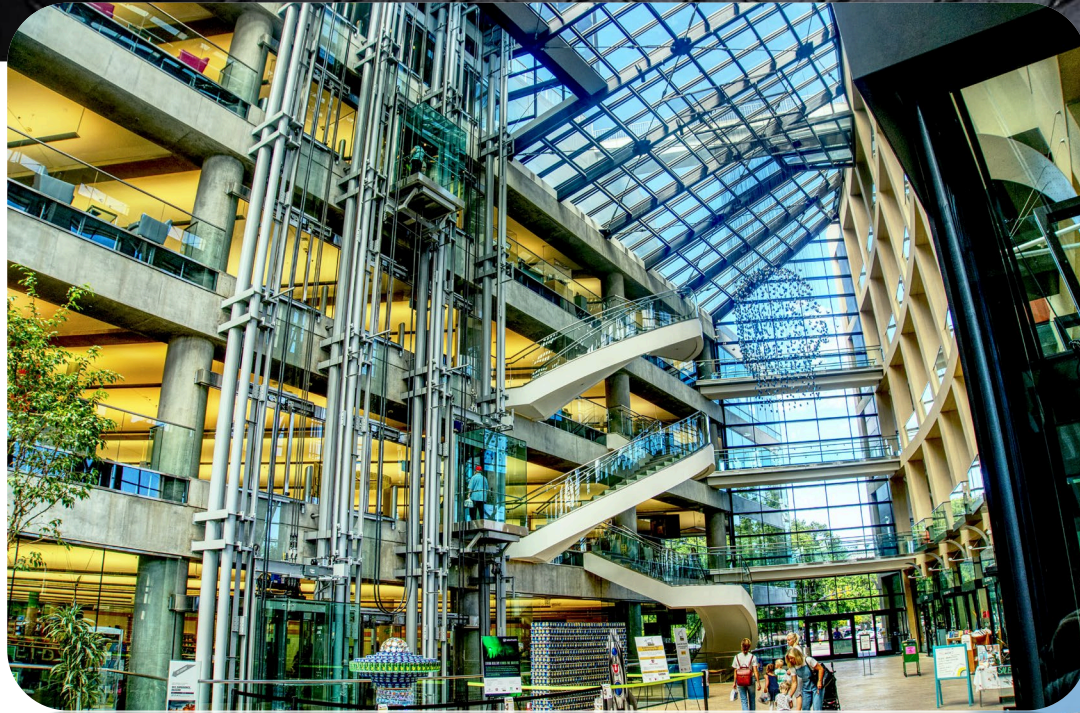

**Feel free to safely learn at a SLC museum. SLC Fire will take care of any emergency.**

**Go to a library, check out a good book, read in peace. SLC Fire is ready to help if called.**

No matter how big or small, SLC Fire has a plan in place to access, help and put out the fire in structures in our city.

Salt Lake City Fire can even help in structures that move!

SLC Fire even helps people when they are building new construction to make sure the building is built to the safest fire code.

**SLC Fire tests fire resources like hydrants and standpipe yearly to make sure they are ready to assist.**

**Football anyone? No worries. Root for your team.  
Salt Lake City Fire has got you covered.**

**In fact, Salt Lake City Fire covers many schools in the area. Thanks for practicing your fire drills so you can do your part to get out and stay out while we come to help.**

**SLC Fire protects the area where the wildlands meet the city.  
This is called the urban interface and we've got a plan for that.**

**There are also plans for all city parks. You are safe to play, picnic, ride bikes, or recreate however you like. SLC Fire is ready if you should need us.**

There are 14 Stations in the SLC area and that means that SLC Fire is ready to respond wherever needed. (Pictured: Stations 1,4, 7, 10, 11, and 13.)

**Firefighters crew every station 365 days a year. Every hour of every day of the year, SLC Fire stands ready to assist.**

**SLC Fire has a fire plan for the city zoo. We will help the animals, the people, and the structures.**

We have drills at the zoo to practice our plan of how to best help.

SLC Fire has a fire safety plan for malls in the city.

If you and your family or friends go out to eat, SLC Fire has a fire plan for the restaurant. Enjoy!

**SLC Fire adapted to the COVID challenge like we all did.  
Whatever it takes, SLC Fire is ready to help.**

**SLC Fire protects our city. Go to the movies, a restaurant, your friend's house, a mall, a grocery store: we will protect you.**

**Attend a convention, we are ready to help if needed.**

Take a walking tour of the city, we are there, protecting.

Parade, ready to serve.

You'll see us at the parade, ready to serve.

Wherever you go in the city, SLC Fire has you covered.

**SLC Fire prepares effectively, responds professionally, and impacts positively Salt Lake City, Utah. Rest easy knowing we are there.**

Use stairs, not elevator. Stairs are protected from smoke.

Never ignore a fire alarm. Get out and stay out.

Follow lit exit signs if you don't know your way out.

Be aware of exits. Way in may not be way out.

Stay calm. Think. Use your head to avoid getting hurt.

Remember how you got into a tall building in case you need to retrace your steps.

**Tips** to remember if you're in a tall building during an emergency.
