Warm Springs Park and North Gateway Park

PHASE 1 ENGAGEMENT REPORT | January 2024

Project Background

In November 2022, Salt Lake City voters approved the Parks, Trails, and Open Space General Obligation (GO) Bond. \$10.5 million of the bond funding is dedicated to reimagining neighborhood parks, including at least one park in each City Council district. These parks were evaluated on a specific set of criteria and then approved by the City Council. Warm Springs Park and North Gateway Park are the parks that will receive \$1.5 Million in funding in City Council District 3. Additional details about the Parks, Trails, and Open Space General Obligation Bond, along with insights into what other parks were selected to be reimagined, are available online at slcparksbond.com.

The bronze dog statue located in Warm Springs Park is a commissioned art piece made by Sylvia Davis in the 1990s. *Photo Credit: Salt Lake City Corporation*

- In 1848, Brigham Young commissioned a bathhouse on the site, which was used as a ward house for several years.
- The bathhouse was completed in 1850 to help bring revenue and foster cooperation among non-Latter-Day Saint members.

- Around 1872 and 1889, about 75 Hawaiians (all Latter-Day Saint converts) settled around Warm Springs Park and the Capitol Hill area of SLC.
- In August 1889, Hawaiians in SLC relocated to Skull Valley (losepa) due to racial prejudice and lack of support.

1848 - 1854 1872 - 1889

Prior to 1848

- The Ute tribe primarily occupied the land.
- In 1849, diseases killed many Indigenous and Native Americans.
- Many members were buried near or at Warm Springs Park.

1855 - 1859

- By 1855, the original bathhouse had fallen into disrepair and was sold to the A.H. Raleigh Golden Tannery.
- The bathhouse continued to fall in disrepair and was under new ownership by 1859.

History

- In 1921 the City hired Cannon and Fetzer to design the Warm Springs Municipal Bath.
- In 1925, the City dedicated eight acres to develop Warm Springs Park.
- By the mid-1970s, the municipal pools began losing their appeal and were no longer financially sustainable.
- In 1981, the Children's Museum of Utah moved into the pool building.

1921 - 1981 1983 - Present

 In 1983, Warm Springs Park was officially re-named as Warm Springs Park after being called "Wasatch Springs Park."

- In 2002, a new playground was installed.
- In 2015, the Warm Springs Master Plan was created.
- In 2022, the General Obligation bond provided funding for improvements.

1892 - 1921

- In 1892, Salt Lake City built a waste crematory on the land that would become North Gateway Park despite the community's disapproval.
- In 1900, the crematory burned down, and the city built the second waste crematory in 1902.
- In the 1910s, two acres of the crematory, which were in Warm Springs Park, were leased to operate an ostrich farm.
- By 1915, the crematory was deemed unsafe and closed in 1921.

1982

- In 1982, tennis court improvement plans were made for the park.
- Plans included the removal of the original 1925 tennis court location and relocation of the tennis courts, as well as additional amenities and plantings.

Promotion of Survey and Project

General Outreach

- 614 mailers sent to households about 2 miles away from the park
- Positioned 20 yards signs throughout the neighborhood
- Presented at the Capitol Hill Community Council on October 18, 2023

Public Lands Social Media

Facebook, Instagram, and Twitter

Reach: 1,508

Engagement: 69

Facebook Targeted Ad Impressions: 3,454

Information Booth

Reached approximately **283 individuals** by setting up an information table at the following locations:

- Office Hours at Warm Springs Park on Sept. 15, Oct. 6 & 20, and Nov. 3, 2023
- 9th and 9th Street Festival on Sept. 16, 2023
- Groove in the Grove on Sept. 30, 2023
- Nature Center at Pia Okwai on Nov. 11, 2023
- Native American Heritage Month Proclamation Reading at the University of Utah on Nov. 11, 2023
- Native American Church Event on Nov. 17 and 18, 2023

Form of Engagement: Online Survey

Online Survey Open Dates

September 13 - December 30, 2023

Participation

562 individuals completed the survey

Stakeholders

- Capitol Hill residents and Community Council
- Indigenous and Native Americans
- Hawaiian and Pacific Islanders
- Mayor's Office
- Warm Springs Alliance

Content

- Current use of the park and users
- Desires for the space
- Cultural history of the neighborhood

Accessibility

- 44 intercept surveys were collected at the park
- Focus groups conducted with Indigenous and Native Americans as well as Hawaiians and Pacific Islanders

Survey Findings

Who we heard from

Respondents **52. 49** % who live in the neighborhood.

50. **71** % Respondents who travel to the park by car

76.69%

Demographics

What we heard

- Revitalize the natural warm springs and plunge building
- Join and rename Warm Springs Park and North Gateway Park
- Incorporate features to support community gatherings and events
- Add more parking spaces
- Include electrical hookups
- Provide more benches, dog waste bins, and shade structures
- Provide more historical and cultural representation in the park
- Convert tennis courts into pickleball courts
- Keep: off-leash dog hours, the existing trees (as much as possible), and historical monuments on site.

Form of Engagement: Focus Group

Indigenous and Native American Group

Meeting Dates

- Virtual Meeting on December 13, 2023
- In-person Meeting on December 14, 2023

Participation

- Indigenous and Native American
- 9 individuals participated

Topics Covered

- Indigenous Medicinal Garden
- Public Art
- Indigenous Land Acknowledgement
- Renaming the Park
- Re-activation of the Warm Springs
- Plunge Building

Council Member Chris Wharton, Salt Lake City Administration, and Native American community members gather for a Native American engagement event at Marmalade Library on November 17 and 18, 2023. Photo Credit: Salt Lake City Corporation

Focus Group Findings Indigenous and Native American Group

- Indigenous Medicinal Garden Incorporate the following Plants:
 - White Sage
 - Three sisters (Corn, Beans, and Squash)
 - Flat Seeder
 - Choke Cherry
 - Sumac Berries
- Renaming the Park Requested to be involved in the park's renaming to reflect their legacy.
- Land Management Agreement More information is needed, but there is interest in being involved in creating one.
- Activate Warm Springs The warm springs should be activated, and signage installed to explain the historical significance.
- Location Preference Expressed how Warm Springs Park would best honor the Indigenous and Native Americans rather than North Gateway Park.
- Indigenous Artist There is a preference for an Indigenous artist to create art at the park.
- Plunge Building Would like to access the Warm Springs Plunge building for community gatherings.

"This is personal for me, within my own tribe, that the land and the water was used for ceremonial purposes before we were, you know, taken off. I feel like having some sort of verbiage on what we used the [Warm] springs for...just something to represent that this area was used for ceremonial purpose for us and it provided so much for us.. And it is continuing to provide so much for the people that are there still."

- Indigenous and Native American Focus Group Participant

Form of Engagement: Focus Group

Hawaiian and Pacific Islander

Open Dates

Virtual Meeting on January 11, 2024

Participation

4 individuals participated

Topics Covered

- How they experience their culture:
 - Dance
 - Events in SLC
 - Food
 - Symbols
 - Stories and Murals
 - Sports
- Amenities that can help them celebrate their culture in the park

Hawaiians and Pacific Islanders celebrating Pioneer Day in Iosepa (1913). *Photo Credit: Courtesy of the Utah State Historical Society.*

Focus Group Findings

Hawaiian and Pacific Islander

- Representation at the Park They requested a monument, murals, or/and storyboards to reflect their history at the park.
- Trees The park needs trees, or it will not be desirable to visit.
- Access to food Would like to grow healthy food and programming to learn to prepare culturally relevant dishes.
- Incorporate symbols and figures into the park:
 - Queen Lili'uokalani's visit to Salt Lake City in 1900s
 - Water
 - Mountains
 - Ngatu designs
 - Hawaiian Flag
- Key amenities for cultural celebrations:
 - Stage
 - Pavilion with audio system
 - Grills or an Imu (underground oven)
 - Open kitchen
 - Pickleball Court

"When people think of Utah they think of white people. If there is a message, I would like to say, "we are here."

-Hawaiian and Pacific Islander Focus Group Participant

Next Steps

Public Lands staff will consult with technical experts, landscape architects, and maintenance supervisors to create a few concept designs that reflect the feedback gathered from the first phase of community engagement. During this time, Public Lands will also conduct a feasibility study to understand the possibility of reactivating the warm springs.

There will be more engagement opportunities in late 2024 so the public can give feedback on those proposed concept designs. It's important to note that with the current funding, Public Lands cannot fulfill every desired wish. However, Public Lands will identify the common desires and feasibility based on budget and studies for the parks and prioritize those aspects in our planning and development efforts.

Tentative Project Timeline

Develop scope of work July - Aug. 2023 Phase 1 of Engagement Sept. - Dec. 2023 Evaluate feedback and develop the concept designs Jan. - Mid 2024 Phase 2 of Engagement Mid 2024 - Late 2024 Design document and review Early 2025 - Mid 2025 Contractor bidding and selection Mid 2025 - Early 2026 Construction Early 2026 - Late 2026 **Project Completion Early 2027**

Warm Springs Park and North Park: Reimagine Neighborhood Parks, Trails, and Open Spaces

Identifying the Current Use

o How far is the park from your home?

Answers	Count	Percentage
5 minute walk (A quarter to half a mile away)	117	20.82%
10-15 minute walk (Within a half mile away)	87	15.48%
20 minute walk (More than one mile away)	122	21.71%
Further than walking distance (More than 5 miles away)	200	35.59%
Other (Tell us more)	33	5.87%

o How often do you visit the park?

Answered: 559 Skipped: 3

Answers	Count	Percentage
Daily	52	9.25%
Weekly	90	16.01%
Monthly	82	14.59%
Occasionally	199	35.41%
Rarely	99	17.62%
Never	37	6.58%

• How do you generally get to the park?

Answered: 559 Skipped: 3

Answers	Count	Percentage
Walk/jog	187	33.27%
Bike	47	8.36%
Rideshare/Taxi	1	0.18%
Car	285	50.71%
Not applicable	25	4.45%
Bus	2	0.36%
Other (Tell us more)	10	1.78%

Answered: 557 Skipped: 5

o When you visit the park, with whom do you usually come other than yourself?

Answers	Count	Percentage
Children 13 and above	54	9.61%
Adult Friends	301	53.56%
Not applicable	98	17.44%
Individuals with accessibility needs	13	2.31%
Children 12 and under	108	19.22%
Other (Tell us more)	96	17.08%

Answered: 546 Skipped: 16

o What do you currently enjoy or use the most at the park?

Answers	Count	Percentage
Playground	88	15.66%
Fenced Dog Park	116	20.64%
Dog Sculpture	77	13.7%
Trees	336	59.79%
Bathrooms	84	14.95%
Benches and/or Picnic Tables	194	34.52%
Grassy Area	355	63.17%
Tennis Court	36	6.41%
Other (Tell us More)	135	24.02%

Ideas for Improvement

o If you rarely or never visit the park, what are the reasons?

Answered: 533 Skipped: 29

Answers	Count	Percentage
It is not maintained or clean	97	17.26%
I do not feel safe	133	23.67%
There is a lack of amenities at the park	183	32.56%
I do not have access to personal or public transportation	5	0.89%
Lack of Time	82	14.59%
I did not know the park existed	30	5.34%
Other (Tell us more)	93	16.55%

Answered: 434 Skipped: 128

o When you think of your favorite park, what features make it special?

Answers

Count

Response	Count
Hot springs	4
WE WANT HOT SPRINGS!	3
The hot springs	3
Bring back the hot springs!	3
Warm Springs Plunge	2
Hot spring history	2
History of the warm springs	2
Bring back the Hot springs	2
Yes. The history of our use through time. Including the warm spring building and pools.	1
Yes, when I was young I love to come swimming there. I would like to see swimming pools returned.	1
Yes, the Warm Springs Plunge building needs to be updated and made usable again as a hot springs plunge bath, after all, the park is named Warm Springs Park for a reason! The fixed building should all so honor the indigenous and early Mormon history of it.	1
Yes the stuff WARM SPRINGS	1
Yes the story of the mineral pools and how early people used them	1

Yeah, the hot springs!! Not just in name, but actual hot springs is not only an amenity but a tribute to al I those before us who shared in this natural environment	1
Would love to have the history of the warm springs building (bath house?) and local neighborhood inc orporated	1
What about the warm springs themselves Restore the Warm Springs buildings and let people enjoy th at historic part of the park too.	1
What about the Hot Springs legacy of the park? Why aren't you talkiing about that?	1
We want to bring the HOT SPRINGS back!	1
We want the warm springs Hot springs to be renovated and fixed up for the community	1
We used to go there for the Children's Museum	1
We need a place dedicated to wellness on an indigenous heritage site. This is an opportunity for a public/private partnership to restore the use of the springs by all. This singular project can serve the whole region and welcome site for visitors.	1
Warm springs use by indigenous people	1
Warm springs usage	1
Warm Springs should be brought back to life!!!!	1
Warm springs revitalization on site, all the folks who live there right now unhoused	1
Warm Springs natural healing and gathering properties	1
Warm springs is cultural significance and indigenous gathering too	1
Warm Springs has many layers of stories to tell. Primarily the indigenous connection, also its role as a gathering place for many communities, including the settlers, the people who grew up swimming at W asatch Plunge, the Children's Museum and more	1
Warm springs	1
Utilizing the hot springs! There is an amazing and unique resource through them, they should be utiliz ed and invested in!	1
Use the hot springs as hot springs, with amenities for recreation and health!	1

Use of the springs throughout history; including significance to area tribes.	1
Use of the hot springs.	1
Use of the hot springs	1
Use of the healing waters.	1
This survey ignores the purpose of the location - providing warm spring! That's not right! The building and springs need to be reestablished. This should become an essential stop for everyone visiting Salt Lake. Including during the Winter Olympics!	1
This place used to be a popular gathering place to spend in the hot springs. Indiginous and pioneers u sed this place to bathe, soak and heal in the waters.	1
There's a great need for a place like this, for: community health and wellness an indigenously-centere d heritage site historic preservation connection to nature connection to ourselves connection	1
There is no other place like this historic park with real memories going back to pioneer who built a structure so that women and men alike could bathe or soak togetherand they welcomed the indigenous population to join thembefore the army arrived.	1
The wintering place for indigenous peoples	1
The whole historyfrom indigenous use to current day.	1
The water and hot springs history! It's wholly unique	1
The warm springs. They were used by indigenous people, travelers on the California Trail and early s ettlers.	1
The warm springs!!!!!	1
The Warm Springs were once a beautiful part of the park. They served as a cultural landmark before u s & could connect people again.	1
The Warm Springs pools should be re-opened	1
The warm springs must be utilized for people's benefit	1
The warm springs building is an important tradition that I'd love to see become a large part of the park (such as a community center)	1
The warm springs bath house.	1

The warm springs	1
The warm spring; history of the building	1
The warm spring pools!	1
The warm spring building used to have a model railroad exhibit that was open to the public once a month I loved just viewing what the do so did my kids please bring it back it was called the Golden spike model railroad club thank you	1
The use of the springs by indigenous peoples	1
The use of the springs and now obliterated pond as a heal and medicinal retreat for the three n utah n ative tribes	1
The use of the natural hot springs by indigenous peoples	1
The trappers using the warm springs to keep warm	1
The traditional/ceremonially use of the water and land by the Ute Tribe.	1
The tradition of using the hot springs for health rejuvenation	1
The tradition of LEAVING UNSHELTERED PEOPLE BE when they are simply existing. Stop abateme nts, provide housing. And don't you DARE implement hostile architecture such as spikes, rocks, benc hed with obstructions that prevent sleep, nor excessive lighting	1
The tradition of a warm spring bath house must be considered. What a wonderful attraction to have in our city. Acknowledging indigenous peoples' use of the healing waters & restoring them for all to enjoy is crucial.	1
The story of the warm Springs as a bathing place and resort and the building that housed this	1
The stories of First Nations people (ONLY if provided by the tribal elders, not well meaning professor s).	1
The springs!	1
The springs themself! Of course. Honor that water is key, and people have used the springs since bef ore the white people came.	1
The specialness, and history of the hotsprings. The importance of the natural world. To help balance t he mess of the refineries. It is sacred and vital to the valley's eco systems.	1

The plunge building. I'm guessing that the concept to merge the two parks has something to do with r emoving the building. We do a pretty bad job in SLC of maintaining any public spaces of historical val ue. I would hope the structure can be retained.	1
The plunge building needs to be preserved and used to bring people to the park as a community gath ering place.	1
The old trees! I know they are some of the first planted in the city.	1
The old pool	1
The old LDS spa	1
The natural springs need to be restored and celebrated. They can be a huge draw and ongoing reven ue stream for this amazing park. It can be so much more than it is.	1
The natural hot springs	1
The natural and cultural history of the hot springs	1
The native Americans used the springs. There is nothing here about restoring access to the springs, h istory, traditions. Why is this not mentioned. That would make the park unique. This should be a major emphasis	1
The mineral springs itself! Therapufic!	1
The mineral baths!	1
The indigenous history of this park and the Hot Springs should be be the main focus of this park.	1
The Hotsprings history	1
the hot springs. Bring those back!	1
The hot springs!!	1
The hot springs! Please bring back the springs for bathing!	1
The hot springs! It would be amazing to make warm springs an accessible, safe place to soak in the s prings.	1
The hot springs! I would like to include access to the hot springs for the community.	1
the hot springs! Can we have a community hot spring healing space?	1

The hot springs!	1
The HOT SPRINGS specific history & usage. And animal species of various types. And sorry>taking this spot to say I dislike gaudy dominating murals. Enjoy sculptures & most statues. Wish4 slightly ele vated surfaces for books, similar to chair+mini-table.	1
The hot springs need to be available for the community	1
The hot springs is perhaps the most important thing to incorporate in the park	1
The hot springs history	1
The Hot Springs being revitalized and accessible for public use	1
The hot springs are so critical and unique. They need to be highlighted and used. A gathering and hea ling place like they were in the past. What a unique opportunity for Slat Lake. The hot springs are the draw and need to be used.	1
The hot springs!	1
The hot springs - we need a soaking and wellness center	1
The hot spring, water appreciation, and bath house	1
The hot mineral baths need to be restored. After all, that is what it is. The Warm Springs Alliance has been gathering community input for years and the message is loud and clear "bring back the hot springs!"	1
The history of warm springs and access to the springs themselves	1
the history of Warm Springs	1
The history of the warm springs and the building on site is important and a fixture of warm childhood memories for multiple generations, preserving and bringing families back to use this space as a community is important to me.	1
The history of the warm springs	1
The history of the spa and hot springs and its use by all the different peoples throughout history.	1
the history of the park and hot springs should be reflected as well	1
The history of the original use by indigenous peoples.	1

The history of the neighborhood. Photos are available to see and learn how the park was an attraction for residents and visitors alike. Reed had a grocery store and hotels. The train came down 3rd w bring ing people to and from. neighborhood a destination.	1
The history of the hot spring.	1
The history of the early Mormon pioneers and their creation of the first thermal bathhouse. My ancesto rs were in charge of building thatthe Hendricks.	1
The history of the actual "warm springs" that have been paved over and diverted.	1
The history of generations of people gathering to enjoy the hot springs	1
The history and healing capacity of the warm springs needs to be a space where people can gather, h eal, and connect not just with each other but the rich history and land.	1
The historical Warm Springs bath	1
The historical healing aspects of the spring; the uniqueness of a hot spring within a city.	1
The early Mormon Pioneers used the area extensively. Information panels and interpretive displays sh ould not omit this!	1
The shill decree accessors to be a seed in the best like a	
The childrens museum was housed in the building.	1
The building should be refurbished into acommunity center gorthr neighborhood	1
The building should be refurbished into acommunity center gorthr neighborhood	1

Swimming, + resume Model Railroading crafts in the south basement of the restored Warm Springs Pl unge building	1
Stories of people whose health has been improved through consistent hot spring soaks.	1
Stories about warm springs pools and swimming	1
Stories about unhoused peoples. How park can be a safe space for them the beeven live and assist them to take care of the parks as their home, if they choose to do so.	1
State history and pioneers.	1
So many people tell me about their memories of the plunge! I'm sad it's no longer there	1
Shoshoni people would bathe in the Springs for medical purposes. It would be a shame to not include the actual springs the park is named after.	1
Revive the hotsprings for swimming	1
revitalize the hot springs	1
Retiring some of the land to the natural habitat. Restoring the building and turn it into a community sp ace	1
Restoring the use of the hot springs	1
Restore the warm springs swimming facilities	1
Restore the hot springs and historic building for use for the community	1
Public access with minimal fees	1
Provide more information on the geological significance of the warm springs	1
Please restore the warm springs hot springs and baths - it would be an amazing and unique communit y resource!	1
Please restore the hot springs!!! It's the crown jewel of this park - and the whole reason it was special in the first place!	1
Please include Native Hawaiian/Pacific Islander History and Cultures due to the significant contributio ns in Utah, Indigenous Tribes, Contemporary Living Cultural (including Spiritual) Practices of Diverse Communities	1

please do something that acknowledges the hot springs, it is one of the natural features that make it u nique. to ignore that would be sad. if the speings cannot be developed for soaking can a greenhouse or other structure be heated with the water?	1
Please bring back the hot springsthat would be so amazing as a public gathering spot!	1
Pioneer stories need to be told also	1
People gathered here to cleanse themselves in very holy water coming up from the earth, and even h eal themselves with the minerals in the water.	1
Our area has a long history of Hot Springs and they have all been cemented. Tell the story of indigeno us people and the hot springs. I travel to Europe and they showcase the hotsprings as bath house an d space of healing and community.	1
Original use of the spa building and what a fancy place it was in its day	1
One of them should have an outdoor swimming pool, or possibly indoor, so people can learn to swim and cool off in hot weather. Kids on the west side have Few places to swim.	1
Of course! Restoring the hot springs! & the building as much as possible, for community HEALING ce nter	1
Not at this time	1
None that I'm aware of	1
No	1

Na My family often visits the historic Wasatch Plunge building for photos and reminiscing about family hist ory. I'd love to see this building restored and used and the hot springs brought to life again as a vital p art of this project! meaning and value and history of the hot springs Make the Hot Springs accessible again so they can be enjoyed as they were by indigenous peoples a	1 1 1

Lots of native plants and flowers	1
like to see the Warm Springs Plunge open once again, swimming and hot tubs.	1
LGBTQ history if the site	1
learning to swimming	1
Keep/refurbish the historic bath building	1
Just let it be a park not a political symbol.	1
Its legacy as a community pool and safe haven for children	1
It would be great to have the indigenous stories recorded and told from indigenous peoples (first pers on).	1
It is of uttermost importance to save Warm Springs building. No city has hot spring right in town. We s hould celebrate such gift and create spa and warm pools for people to enjoy.	1
It has a deep historical roots as the remembered Plunge and Children's Museum. The Building is a wo rk of art to be restored.	1
Indigenous, Pioneer, and subsequent groups	1
Indigenous people and the hot springs which should be available for the public to use the hot baths	1
Indigenous and pioneer use of hot sprngs. Former lake was a oeace ground for tribes and was one of t first places Brigham Young visited after arrving in the valley.r arriving in 18	1
Incorporate the actual warm springs themselves into the upgrade.	1
I would strongly like to see the city fix and reopen the Hot Springs. It's a unique location and a historic al landmark that offers Hot Springs very close to town where others are a far drive away	1
I would love to see some art from the local k-12 schools	1
I would love to have more history on the significance of the hotsprings to the indigenous communities and mormon communities. It's a big shame to me that the warm springs themselves are not more of a focal point of the parks.	1
I would love for the hot springs to come back for community use.	1

I used to walk to Warm Springs, now I have to drive to Crystal Hot Springshow stupid SLC "leaders" were to abandon us.	1
I think we should give a lot of control to the indigenous community. I also think we should restore a mo re natural habitat.	1
I think there should also be acknowledgement of the history of the warm springs as a healing place A ND the area's industrial uses (the train passing nearby, oil refractory, the mining pits, immigrant reside ntial area).	1
I think the history should span from natural history to Indigenous history to pioneer history to the curre nt Marmalade neighborhood.	1
I think it would be great to get descendants of the local tribes from the area to tell stories for plaques o r put on festivities and stuff	1
I remember swimming at the pool and enjoy hearing otjets memories of Wasatch plungr	1
I really appreciate this question. The story I want to tell and share is of a space where neighbors take care of each other and spend time together.	1
I love this history of warm springs and memories of swimming and having lunch at the cafe therr	1
I Hot Springs are part of our legacy and should be part of how we gather and enjoy this park	1
I have followed the fate of the park and efforts to preserve and restore. this survey does not talk about the most unique feature, the spring. You need to restore the spring so we can use it and highlight it as a city resource of historical importance.	1
I believe it was formerly the site of a cycling velodrome.	1
I am really surprised to not see HOT SPRINGS in this survey. The single most important feature that t his park should center on is its HISTORIC HOT SPRINGS!!! That WAS the indigenous connection to t hat area and of the early settlers.	1
I am mainly interested in the park because my GGGgradfather, James Hendricks, was one of the earl y developers of the spings	1
hot springs, that there used to be a lake nearby etc	1
Hot springs need to be used as in past	1
Hot Springs are an integral part of indigenous life, history, and future. They are sacred places that nee d to be honored, revived, and made accessible to the local community.	1

Hot springs are already there, the warm springs are the most valuable aspect of the park and represe nt the indigenous ohs people who still inhabit the area, bringing g voice to their culture and educating and nourishing our cultural connections	1
hot spring, as reflected in the name "Warm Springs"	1
Hot spring soaking	1
History of Warm Springs Splash bath and lakes.	1
History of thr Warm Springs resorts themselves	1
History of the springs	1
History of the hot springs	1
History of the children's museum	1
Historically the warm springs has been a ceremonial meeting place of indigenous peoples of the land. More recently, the warm springs was a place of recuperation and wellness for Pioneers and families w ho visited to enjoy gatherings and days out.	1
Historical context since the valley was settled by Mormon settlers.	1
Historical Building and green space.	1
Historic use of springs up to modern era	1
Historic and cultural stories that enforce the value of the site.	1
Highlight the natural world , environmental history	1
Healing	1
Green roofs on shade structures, attracting wildlife like birds — continuing the Tracy Aviary story.	1
Give the land back	1
Gardner sash mill	1
From the use of the springs by indigenous people, then early Mormon settlers, to the Wasatch Plunge pool so many still fondly remember, to the well-loved Children's Museum, the area has cultivated community in unique ways for hundreds of years.	1
Early pioneers	1

Drumming, soaking	1
Definitely having a skate park that is good for all wheel types. That includes scooters, BMX, rollerblad es and skateboards. One saying I love to say, is all matter. (Ask professional riders to help with desig n)	1
DECOLONIZE	1
Connecting todays use to yesterdays use	1
Cleaning and maintaining the warm springs so they are accessable usable. We should take advantag e of the natural springs for public use.	1
Children's Museum, Warm Springs	1
Certainly the history of the park and springs and the original use and interaction between the settlers and the indigenous	1
BRING BACK THR HOT SPRINGS	1
Bring back the warm springs	1
Bring back the warm spring pools	1
Bring back the hot springs!!!!	1
Bring back the hot springs! We need access to the natural hot springs right here in the city for better h ealth and would be great for community!	1
Bring back the hot and restore the beautiful building. It's part of our history!	1
Bring back the hot spings for public use and tell how they were used by the indigenous people.	1
Bring back the building with swimming pools for the community	1
Bath house & include fountains	1
Art installations by Indigenous artists.	1
All traditions of Salt Lakers	1
Actually using the warm springs like the history of the parks suggest.	1
Absolutely! The use of the area as an actual hot spring gathering place.	1

About the warm springs, it would be nice to renovate or rebuild them.

o Is there anything else you want to mention? If not, please leave this question blank.

Response	Count
Bring back the Hot Springs	5
We want hot springs!	3
Revitalize the Hot Springs	3
Bring back the hot springs!	3
Skatepark	2
Reopen the Hot Springs	2
Please bring back the hot springs	2
Hot springs	2
You have to figure out how to get rid of the transient camps. There's rampant drug use and trash left o ver from them all along the side of the park and their presence at night is very concerning for young p eople and women.	1
You can't do anything to this park until you ask the homeless people to leave. It's an eye sore if a villa ge and not safe for kids when homeless people are passed out in the park.	1
Yes, Improve the hot springs.	1
Yes return swimming pools to the park.	1

Yes restore the Hot spring area	1
x2 on adding eyes and generative function to the park. It would feel safer, and see more use if it were n't so isolated. The use case for the actual warm springs and historic building should be merged with t his park.	1
Would love to see hot spring pools incorporated into this park	1
Would love to have a skatepark and creating a safe space for community members. The homeless have taken over the park and made the hot springs inaccessible or safe	1
Would be great to restore the springs and the building.	1
Why not keep it simple/hot spring spa	1
Why is Warm Springs not even mentioned? That is an important part of SLC heritage and Native Ame rican heritage.	1
Why don't you even mention the springs? Ridiculous. They are a HUGE part of the park and renovation process. They unquestionably should take priority.	1
While highlighting the individual, unique history of this location, I think it's important to also consider th is park as part of all the parks in the SLC area. For example, I'd love to more easily take the bus there from other parks downtown.	1
What will happen to the building right in the middle of this? Seem like a very important condition. Coul d it be an aboritum?	1
What is the plan with the old building that is located near the park? from my understanding it used to b e a bath house? I think it would be really cool to incorporate the building into a rec center, reinvent into a bath house, a mesuem, etc.	1
What happened to the 2018 master plan for the park that was approved and should have been completed by now? Is this similar to that where you will ask our opinions so we feel we have ownership but then nothing ever changes?	1
what does connecting these two parks mean? tearing down the hot spring building? I don't support th at.	1
What are the plans to restore the actual warm springs? Having a public bathhouse would be a huge a menity for the city.	1
What about the warm springs???	1

What about the warm springs? Are there plans to build pools and direct warm water for soaking?	1
What about the hot springs? Bring back the pools!	1
We would love a skatepark and parking in this location	1
We want warm springs soaking pools	1
We Want the Warm Springs Soaking springs back	1
WE WANT HOT SPRINGS! Bring them back	1
We want hot springs	1
We want hot spring!!	1
We need to restore the Warn Springs swimming pool. Also need Pickleball courts. Also need a covere d pavilion.	1
We need the hot springs back	1
We need covered pavilions at this park	1
We need and deserve to have the local hot springs and swimming facility restored. There's a great ne ed for: a community health and wellness an indigenously-centered heritage site. This is a perfect opportunity for a public/private partnership.	1
We just went on a honeymoon in Japan and the Onsens were THE highlight of the trip. It would be ma rvelous to have a public bathhouse here in the City. It's a public park, but charging a fee would be pref erable to keep the facilities up this time.	1
We are so looking forward to restoration of access to the warm springs. We would consider an endow ment from our estate to supply funding to continue use of the warm springs.	1
Wasn't a plan to redo the park submitted and approved several years ago? They showed the commun ity council rendering. Is this just another costly study that will end up going nowhere? Who's paying w ho for this new study and survey?	1
Warm Springs would be a great place to relax, wouldn't have to travel to Lava Hot springs	1
Warm Springs to relax in and enjoy!	1
Warm Springs the pool and building should be brought back to life!!!!	1
Warm Springs needs and deserves to be cared for and open to the public.	1

Warm springs building to be revamped and have tennis or pickleball courts redone so people can use it again	1
Warm springs	1
Walking trails	1
Very interested in the hot springs being rebuilt and open to public	1
Utilize the warm spring.	1
Utilize the springs	1
Use the warm spring for an outdoor pool or community spa.	1
Unique place in nature and culture should be preserved and used	1
Unique History	1
Unfortunately the unhoused make this park a less pleasant experience	1
trees, benches & tables everywhere, especially in the dog park!	1
The building is a jewel and should be restored with the opportunity to enjoy the warm springs that give the park its name.	1
This would be a great space for a skatepark, I live in the neighborhood and have a child that would lov e to have a skatepark within walking distance. There are lots of kids in the neighborhood as well as a elementary school within walking distance.	1
This survey did not ask about the hot springs at all. Please include the hot springs in your planning.	1
This seems to be a place homeless people live, and when that happens people stop using it. so i'd lik e to see this space given back to the people and prevent homeless people from taking over. be more strict about where they can set up shop.	1
This part of town does not have large appealing parks and i support restoring warm springs as a communituy center.	1
This Park is unique because of the hot springs. Please bring the Springs to life again. There is amazin g opportunity to bring people together for health and wellness; to connect to deep nature; and to hono r its indigenous heritage.	1

This park has always been used as an off-leash dog park and it should remain that way. The new hour s are too limiting and unfair to all the people who have been using this as a dog park to allow running and fetching.	1
This is another example of government employees not being required to do things well. Only one of the e tell us more elections opened a text box so i could. Also, bring back the warm springs in some way	1
This is a once-in-a-lifetime moment for a major city to create a first-of-its-kind community wellness center. Please consider funding to bring back a warm springs rec center.	1
These surveys are meh at best in providing real community engagement but it's still better than the SL county does I guess	1
These parks have a long history in SLC and should be preserved with the mindset of community wellb eing, place attachment, community engagement and place remembrance as priorities.	1
There's a hot spring! This is a once-in-a -lifetime moment for a major city to create a first of its kind co mmunity wellness tourism center. There is no other site like this in the Intermountain West.	1
There's a great need for the hot springs, for: community health and wellness an indigenously-centered heritage site historic preservation connection to nature connection to ourselves connection with each other connection/collaboration between communities	1
There should be an easy way for pedestrians to cross 300 W to get to the park, currently one has to d odge across 7-8 lanes. Empty parking lots/spaces are wasteful, there should be an emphasis on gree n space, gardens, paths, etc.	1
There should be access to the springs for soaking!	1
There should be a way to enjoy the natural waters at this site	1
There should be a strong focus on on native vegetation restoration.	1
There is no space to add to the "Other" options. You do not mention the warm springs at all - this is an incredible asset to our community and tells the history of our land more than public art. I strongly feel t he springs should be preserved and utilized	1
There is no mention of the bringing back the hot springs, These should be restored.	1
There is a hot spring and building is historical and if unique use possibilities. Like Iceland and other N ordic countries, we have a unique opportunity to combine so many heritages in a community water an d bath environment	1

There has been no mention of how the warm springs will be considered. Out door soaking places? Community access? I'm not interested in developers building more apartments at warm springs park! There are lots of homelessness around the park. There are lots of homelessness around the park. There are lots of homelessness around the park. The warm springs!!! restoring them to public use as a gathering, connecting and healing space. 1 The warm springs!! restoring them to public use as a gathering, connecting and healing space. 1 The warm springs!! Reveal the awareness of the warm springs as the differentiator of this park from other city parks. It should be a place to experience natural history and western history. Boardwalks. I support Warm Springs Alliance vision. The warm springs should be revitalized 1 The warm springs makes the park special and is a unique and valuable resource that should not be overlooked The Warm Springs is a vital part of the park. I would like to see it renovated either as a pool even as part of a very simple spa setting. I would like to see a fragrance garden with shaded benches. I would like to see native plants. The Warm Springs building is historically important and I wish the city/state would consider making it a usable community space (indoor farmers market? Roller rink alla Millcreek commons?). It currently divides the park in two segments & attracts vagrants. The warm springs are a rare and unique resource right in the city has been unused for almost 50 year s. Let's bring them back! They'll serve: community health and wellness; an indigenously-centered herit age site; and our connection to nature. The Warm Springs Alliance has amazing ideas that would not just enrich the park and surrounding nell ghborhood, but the city as a whole. You should incorporate their plan into the parks plan. The Warm Spring Plunge building is a rare and unique resource right in Salt Lake City and it should be refurbled. There's a great need for a place like this for community health and	There is a homeless community that lives on the hillside above and in the park itself. I think it is wond erful to be able to share the space with them, though I do feel concerned about safety and trash, espe cially in the north springs park.	1
There are lots of homelessness around the park. the warm springs!!! restoring them to public use as a gathering, connecting and healing space. 1 The warm springs! Elevate the awareness of the warm springs as the differentiator of this park from other city parks. It should be a place to experience natural history and western history. Boardwalks. e refurbished. There's a great need for a place like this for community health and wellness.	The Warm spring, and building need to be restored and made an integral part of the planned changes	1
The vitalization of the hot spring. Also harm reduction efforts for the unsheltered.		1
	The vitalization of the hot spring. Also harm reduction efforts for the unsheltered.	1

The tennis courts should be resurfaced and revitalized. Creating pickleball lines would be welcomed a s well.	1
The tennis courts are always closed. It would be amazing if they would open and be pickle ball courts. That would attract more people	1
The tennis court has been locked/closed for the last 3 years (at least). Please repair it and reopen. Wa rm Springs Plunge should be repaired, renovated, and reopened.	1
The survey appears to be bias to encourage the joining of the two parks together but that is not what t he Warm Springs is about.	1
The Springs should be revitalized, recognized &v featured in this park as well as the unique history of this area. It has been a gathering spot for generations of my family and a beloved place for many child ren. That should be recognized and remembered.	1
The parks/buildings should be cleaned up, but the park should be left alone otherwise. Any sort of cos tly major infrastructure change will do little to improve the park, that money would be better spent improving public welfare.	1
The park should absolutely include the springs! This is a unique opportunity for community health and wellness.	1
The park is no longer safe with the homeless and ncampments on the hill. As a single woman I have f elt less are there every time I visit.	1
The park has a warm springs for Pete's sake! The warm springs need to be developed into pools that the public can use!	1
The mineral baths are not only functional, the building is beautiful and historic. The baths and the building should be restored and the centerpiece of the park.	1
The improvement of these parks will improve this neighborhood	1
the hot springs. Bring those back! Please leave any established trees, weather "trash" tree/plant or no t. The birds, bees, and animals all have homes there.	1
The hot springs should be a major part of the park!	1
The hot springs should be a major component & there is a lot of research available for you to hear an d consider. The historic bldg that used2b called the Children's Museum could be repaired. Thank you f or providing this great survey.	1
The hot springs need to be central to the re-development of the park.	1

The hot springs need to be available for public use again. That would be a great gathering space with a spa, hot pools and baths etc	1
The hot springs is the most unique feature and should be restored	1
The hot springs in the old historic building are something that should not be a part of history but a part of today and for many generations. The park should include improvements to the hot springs and a pl an to incorporate the hot springs into the park.	1
The hot springs have been a great resource and can be so again.	1
The hot springs are very important part of the park	1
The hot springs are an amazing ecological feature and should be protected and restored. The area ab ove the park is also host to homeless encampment; it's vital resources are allocated to these people t o help them safely relocate.	1
The hot springs are a unique and very special part of this area. It would be lovely to see them tended t o and interpreted, but left largely natural. I believe they have cultural significance to Indigenous people and it would be good to see more on that.	1
The hot springs are a critical natural and cultural element of the park	1
The hot spring is an important part of the big picture its potential for healthy recreation in Utah's capito I city is unbounded!	1
The hot spring I should be an important part of the redevelopment of this facility, given its history, avail ability and use as hot springs. It is very disappointing that the survey designers intentionally and cons cientiously omitted it from the survey.	1
The hot spring at Warm Springs! It's an incredible natural resource that we should honor, protect, and share with the community, and it's part of our city's cultural heritage, from the native people who lived on this land to the settlers.	1
The homeless squat around the bathrooms and trees. The lack of any patrols or enforcement also enc ouraged worse people to people to bring needles into the park.	1
The homeless situation at the park is un sustainable.	1
The homeless population is a problem. It is unsafe. Our adult daughter will no longer come here alon e.	1
The homeless population creates a space that doesn't always feel safe. It is a disservice to everyone - the people who need assistance and the residents of the neighborhood.	1

The homeless have taken over the parks. I don't take my kids there anymore even though it's the only good green space in the neighborhood. It's not safe, needles and trash everywhere.	1
The historic value of this site and the memories shared by those of us who know and shared in that hi story are priceless. This project can help new generations build and share those memories. The indig enous history is a strong foundation for this project.	1
The geology should be explained	1
The downhill slope directly into busy 300 West is kind of off putting. Might be nice to separate the park from the road in some way	1
The building should be restored and preserved. It seems only historical buildings that have to do with the Mormon church get attention and the others just sit and rot until they collapse.	1
The biggest obstacle the park is facing is the constant infiltration and residency of homeless people on the land and in the hill to the east.	1
The area has interesting geologic features - it would be awesome to have interpretive signs that dive i nto the natural history of the site.	1
The area could use a nice skatepark. There isn't another in the area east of the freeway and the other s aren't super accessible by foot or public transportation.	1
Thanks for burying the lead but is there any plan in restoring the Hot Springs or the Children's museu m. That would be worth a trip to the park!	1
Tennis courts are run-down	1
Sylvia Nibley should be a board member to the city/ committee.	1
Stop terrorizing the homeless. The park functions fine for all users even with campers present.	1
Springs should be incorporated , protected and managed to benefit all	1
Sport courts would be great. Just make the park safe and clean please.	1
Splash pad	1
Something needs to done with the old children's museum. Raised or gutted and repurposed. Cannot r emain how it is.	1
So happy to see funding and support for Warm Springs! Please continue to revitalize that resource!	1
Skatepark and soccer field	1

Skateboarding has a big community that is overall positive in Salt Lake City and skateable features or a skatepark in this area would be a great asset to the community	1
See comment above regarding the building	1
Security cameras and lights please.	1
Salt Lake has a hot springs that has been inactive for 50 years. Let's bring it back!!	1
SAFETY is a massive concern at Warm Springs park. I don't always feel safe there. ALSO The Warm Springs building is so important and our community really needs a center. I'd be thrilled to see that building become a vibrant community center.	1
Revitalizing the use of the warm springs in this place should be the keystone of redevelopment, especially considering the Indigenous Land Acknowledgement; the development and community use of the warm springs is that acknowledgement in practice.	1
Revitalizing the hot springs would make this a special place for all backgrounds to gather. It would bec ome a destination spot, like crystal hot springs, with healing and history combined 🛡	1
Revitalize the Warm Springs building to it's old glory and usage.	1
Revitalization of the historic hot spring.	1
Restoring the Wasatch Plunge and the building as a community amenity and providing access to the h ot springs need to be included in the plan for this park. The natural hot spring is an unique element th at doesn't exist anywhere else in Salt Lake City.	1
Restore the Wasatch Plunge building.	1
Restore the Warm Springs Plunge building, and allow the Golden Spike Train Club of Utah to resume operations	1
Restore the warm springs and let that be part of the story and history of the park.	1
Restore the use of the hot springs and historic building for use of the community. Reduce number of homeless residents	1
Restore the springs!	1
Restore the plunge! Many cities have nice Parker's, but a hot spring pool is one of the features that m akes this park and salt lake unique!	1
Restore the mineral baths and make it affordable	1

Restore the bathhouse and springs for swimming!	1
Re-open the children's museum as a public springs pool	1
Renovating the building is the best way to preserve history, beautify the area, and create a safe, intera ctive, and unique SLC park. Would also love to see the project include additional sustainability based developments.	1
Renovate Warm Springs Plunge	1
Renovate the bath house to some functionality for soaking	1
regarding the springs:There's a great need for a place like this, for: community health and wellness an indigenously-centered heritage site historic preservation connection to nature.	1
Rebuild the hot springs	1
Public washrooms	1
Preserve and enchance the hot springs. Its the most important feature of the park. Lots of municipal r un hot springs across the west to reference. Also, enhance the natural aspects of the springs. Look to Baker hot spring in Delta for naturalzing	1
Please, please - clean up and restore the hot springs for public use!	1
Please!! Reopen the hot springs! Such a gift of nature that has gone to waste far too long.	1
Please revive Warm Springs. Wonderful childhood memories.	1
Please restore the Warm Springs Plunge building and bring back the hot springs! It would be so great to have an easily accessible hot spring right here in SLC!	1
Please restore the natural hot springs.	1
Please restore the hotsprings!	1
Please restore the hot springs! It would (and has in the past) been important to wide gourds of people and is important for health and wellness of our community.	1
Please restore and bring back the sacred springs! These should be honored, celebrated, and open for public enjoyment.	1
Please re-open the warm springs. Its uniquely value is something to be envied socially & holistically.	1
Please renovate and open the Warm Spring Park Pool!	1

Please refurbish and re-open the pools	1
Please redo the tennis courts	1
Please re open the bath house and bring back warms springs.	1
Please put in more seating!	1
Please provide for warm springs to be used	1
Please protect and preserve the natural feature of the park and area, the springs.	1
Please please crack down on the homeless community. My 9 year old son wanted to leave recently b ecause a homeless lady was yelling near him. He's also found needles and human feces.	1
Please make this a sacred place again. Please help us utilize the gifts this Earth has given us and cle an up the karma of ripping indigenous people away from their sacred healing pools and destroying it with literal shit.	1
Please make the springs useable for soaking. Even if there's a fence to close it off at night, just letting it sit there with the invasive weeds is such a waste. It's also a good spot for a small disc golf course	1
Please make the hot springs accessible. After all, the park is called 'warm springs park'.	1
Please make the actual hot springs accessible to the public as a bathing opportunity. That would inclu ding rehabilitating the historic building to serve its original function as a bath house.	1
Please incorporate a plan to revive the use of the hot springs.	1
Please include public swimming/bathing in the warm springs. We lack swimming areas in the city particularly on the west side.	1
please have whatever this project is about lead into the possibility of the hot springs being uncovered and usable for the community as a healing space. Public art is usually not nice. Don't sink tons of mon ey into it.	1
Please fix the tennis courts. Theres roomfor both pickle ball and tennis courts.	1
Please expand the dog park length wise . Doing this could clear out some the low lying homeless cam ps. Also can the tennis courts please be repaired with night lighting until 10 or 11 pm? Could maybe 2 more tennis courts w/ night lights	1
Please don't displace the people camping there	1

Please do not ruin the natural beauty of this place with tennis/ pickle ball courts, soccer/ baseball field s, etc. Leave it natural!	1
Please do not destroy or ignore the historic building as part of this fantastic and much needed project. Please also incorporate both indoor and outdoor community gathering places at reasonable rental/use rates. We need more spaces to gather together!	1
Please do more to detour drug dealers, sex workers and the homeless encampments	1
Please develop the hot springs for public use	1
Please develop the hot spring for public use	1
Please consider access to the springs and building infrastructure around that. It would greatly benefit the citizens of Salt Lake	1
Please community health and wellness an indigenously-centered heritage site historic preservation connection to nature connection to ourselves connection with each other connection/collaboration between communities	1
Please build a skatepark here! I'd come all the time if there were one.	1
Please build a skatepark	1
Please build a sidewalk to the north of the park and connect to victory rd. It's very dangerous and ther e's no good way to access the park from the north or Victory rd.	1
Please bring back the warm springs natural healing pools	1
Please bring back the Hotsprings!	1
Please bring back the hot springs.	1
Please bring back the Hot Springs!	1
Please bring back the hot springs and make it a community center for healing. It's an invaluable resource in the city that deserves to be celebrated and used.	1
Please bring back the hot spring! There is a great opportunity to have a communal space to enjoy the natural hot spring.	1
Please bring back public access to the springs	1
Please allow us to soak in the hot springs, and restore the hot spring pools, thanks	1

Please add a skateboard park!	1
Pickleball courts would be really nice.	1
Pickleball courts	1
Pickleball boundary would be great to have marked off on tennis courts	1
Pickle ball courts, please	1
Pickle ball court. Use the hot springs for heated pool and run the water back outside for wildlife and ve getation.	1
Pickkeball! (And tennis)	1
Parks are the lungs of cities. Lets keep them and keep them clean	1
Park is on the way home for my grandkids school. We like to stop for a play break but feel concerned with homeless people and trash they leave	1
Open the restrooms year round for people.	1
Need pavilions and reopening of the warm springs	1
Need a skatepark	1
My family and I travel to hot springshow fantastic would it be if one was located right in Salt Lake Cit y!	1
more maintaince at all city parks, less trash	1
More flat area/cement flat area for skating or chalk art when visiting the park would be awesome. Ther e's a large (and growing) community of roller skates in and around salt lake looking to inspire others t hat working out can be fun!	1
More dog poop pick ups areas	1
Merging the parks would be okay, but only if the children's museum building is left intact.	1
Many people I know would really want the warm springs Hot springs natural Hot springs to be renovat ed and fixed up	1
Making sure the hot springs have a welcoming, clean, safe area for people to gather and use them ye ar round. Lockers and or shower and bathroom facilities.	1

Make the hot springs a thriving community area to soak and heal in	1
Make the hot spring an important part of the big picture. This would definitely attract me.	1
Let's get that historic building gem restored somehow	1
Just that I am mildly annoyed that you didn't ask any questions about the hot springs.	1
It's really a shame the building has been sitting unused for so long	1
It's important to maintain and rebuild the WARM SPRINGS aspect of the park as well as the other are as.	1
It's important that this doesn't become an opportunity to make money and capitalize off the community who frequents the area	1
It would be nice to see the building redone and used as a rec center for the community	1
It would be great to do something more productive and safer with the hot springs! They're such a great and unique resource for the park and currently they're just nasty pools filled with needles and slime: (Maybe making them into a public swimming area?	1
It would be great to be able to safely use the hot springs	1
It would be fantastic to rehabilitate the original use and have beautiful, natural, outdoor pools, a comm unity spa, maybe a restaurant, interactive history experiences, and multi-use event spaces.	1
It was my play place and swimming hole when I was young	1
It seems a shame to have let such a wonderful resource such as a hot spring with historical significan ce fall into disrepair and forgotten status. It deserves to be a significant gathering and event space.	1
It needs better access for wheeled people, like baby strollers. Currently the only way for us to get into the park is via the driveway that the cars use.	1
It is very important to reopen the hot springs and make them available for the public to enjoy	1
It is very important to me that the park keeps the leash free dog hours. The reason I visit the park ever y day is to let my dogs exercise and enjoy the community of other dog owners. They are a very warm and welcoming group.	1
It is important to me and my family that the hot spring pools be restored and function for the communit y and visitors. It should also be acknowledged that Indigenous communities have a history and right to provide insight and ideas to the planning.	1

Install sharps containers	1
Incorporate the hot springs into your planning. We need something in salt lake that is unique for guest s to visit and draw some attention to a different attraction.	1
Inclusiveness of Warm Springs and North Gateway Parks and their histories are important	1
Imperative to restore the hot springs for local & indigenous amelioration!	1
I'm told that combining the park, which would make sense, makes the development of the Warm Sprin gs building more difficult which is why I said Dissatisfied.h	1
I'm surprised the hot spring hasn't been included in this survey. This is not a typical park. Also, the "tell us more" feature of this survey isn't working	1
If we could bring back the pools for wellness and soaking as a community wellness center. Life is so f ast paced these days and there are very little spaces to relax and rejuvenate those in the community. t hink recreation wellness center.	1
If they are merged north gateway needs lots of cleaning up me and my dog rarely venture to that side because of how dangerous and gross the area is	1
if the city wants to improve this area, they need to monitor the homeless problem better this park is tr ash because the city allows the homeless to destroy it regularly	1
I'd like to see the restoration of the mineral spring warm water pools for public use. It's rare to have su ch a treasure in an urban area. Also tennis courts are under utilized. Conversion of some to pickleball would be good.	1
I've lived in the neighborhood for 12 yrs, and Warm Springs park has always felt very creepy. Maybe it's just because no one is there or its location right on 300 West.	1
I'm not sure where north gateway park is	1
I'd like to see the hot springs restored and turned into a community wellness center	1
I'd like to see a hot spring pool and spa.	1
I wouldn't vote for this if it includes removing unsheltered residents	1
I would really love for the public to be able to utilize the warm springs again.	1
I would love to see this place as an integrative, indiginous healing center with the hot springs revived.	1

I would love to see the springs revitalized & learn more about how this park was important to the I dig enous people of salt lake.	1
I would love to see the spring and creek be a centerpiece	1
I would love to see the restoration of the historical building and communal pools	1
I would love to see the hot springs made usable!	1
I would love to see the Hot Springs back in order! That would be a fantastic way to merge the parks a nd foster community.	1
I would love to change the tennis courts into pickle ball courts!	1
I would love the springs to be usable by the community.	1
I would love local hot springs	1
I would love for a Skatepark to be considered as part of the reimagining of the parks!	1
I would love a skatepark	1
I would love a larger fenced in dog run or multiple dog runs in the two (combined parks). More and bet ter maintained athletic spaces would also encourage me to visit more often.	1
I would like the park to be aplace of beaty and were people can come without feeling unsafe	1
I wish we had access to hot springs	1
I wish there were more trails on the hill that we could enjoy.	1
I was very intrigued on the flyer by the mention of the warm spring and wellness, workshop, and danc e opportunities. We all need more access to Nature. Having a space that still feels natural (rather than a neatly curated park) would serve a big need.	1
I want to see tmineral water pools available for soaking and the grand building saved and repurposed for community use	1
I want to make sure the original hot springs are fully restored.	1
I want to bring back the hot pools so area residents can enjoy the health benefits	1
I want the park to feel like a safe and clean space. I often have to use the bathroom when I'm there but am not comfortable using it there. I also often feel unsafe as a solo woman taking a walk there.	1

I think warm springs has so much to offer the community but as is most people don't feel safe there. I would really love to see people drawn to this area with the restoration of the old children's museum building and the hot springs. I think using the natural hot spring to create a public pool would be an excellent use of the space and money. I think unification of the two parks would be amazing but I also don't think it is realistic or possible with out an investment in the warm Springs Park building. That building is beautiful, and yet crumbling and sits in between these two parks. I think the park cannot be complete without the revival of the building, and of use of the spring I think that this park should have a connector trail built to the Hell Canyon trail head. I think public access and restoration of the natural spring waters should be a priority. Something like the e Bozeman hot springs in Bozeman Montana would be an excellent addition to our city. A place with e xcellent mineral waters and a musical venue. I think it's important to restore the hot springs that exist on this land. They will draw in community and honor the Indigenous people who value these springs. I think bringing the springs back is very important I think bringing back the use of the hot springs would be a very beneficial investment for the communit y and be of great use for the space

I think bringing back the use of the hot springs would be a very beneficial investment for the communit y and be of great use for the space
y and be of great use for the space
I think a pool or rec center would be great integrated as part of the historic structure.
I really would love the hot springs to be utilized and available to the public. I see the hot springs as a p otential space for community gathering and healing.
I love the off-leash hours in the park. I don't love the trash and the screaming of the permanent campe 1 rs in the park
I liked going to the park and also going into the warm spring building and visiting the local model railro 1 ad club my kids enjoyed that alot.

I know we have a lot of competing needs/uses in the park. The population that lives there typically doe sn't create issues, but from time to time it can be pretty overwhelming and as a single woman I don't a lways feel safe being there. I hope to find restrooms that are cleaned, monitored to some extent and OPEN. The restrooms in thes e two park areas are categorically never open. This is a true problem for long stays in the park. The port-a-pottles are attractive or sufficient. I hope restoring the building and creating a community center is a priority of this redesign! I have been part of discussions with Sylvia Nibley for some years now regarding the possibility of a Community Wellness Center. I am Doctor of Traditional Chinese Medicine trained in China. The area there has a unique opportunity to become very special I follow the work of the Warm Springs Alliance and their vision is the only one I've seen that would activate this park/neighborhood. I don't visit the park as much as I should like because I am somewhat disabled, so I usually dwepend on my chidren taking their children. I would go more often if I could be sure of finding a disabled parking space. They are often overrun during events. I didn't see anything in this survey about the Warm Springs themselves. What is the plan for them? I didn't even realize the space north of Warm Springs was considered a park, so it would be cool if that twere a bit nicer (less dirty with litter, less buggy) I couldn't get the drag and drop to work for me. Altracting more visitors is number 8. Salt Lake and using the place as some altraction is not needed. Preservation, caring and saving the area and the antique building are the most important. I could see this park with natural spring pools becoming a destination for individual people and events. I could see this park with natural spring pools becoming a destination for individual people and events. I believe the hot spring is an important part of the big picture for the park. I became aware of this pro	I like to take my dog to this park. There is a group of people who gather with their dogs on the large pl aying field and it's a great place for the dogs to play. Would want to keep this feature, with grass, as th at's the best ground cover for the dogs.	1

I visit a natural spring pools park in Duran go Colorado 2 times each year. When I stated con	sn't create issues, but from time to time it can be pretty overwhelming and as a single woman I don't a	1
I have been part of discussions with Sylvia Nibley for some years now regarding the possibility of a Community Wellness Center. I am Doctor of Traditional Chinese Medicine trained in China. The area there has a unique opportunity to become very special I follow the work of the Warm Springs Alliance and their vision is the only one I've seen that would activate this park/neighborhood. I don't visit the park as much as I should like because I am somewhat disabled, so I usually dwepend on my chidren taking their children. I would go more often if I could be sure of finding a disabled parking space. They are often overrun during events. I didn't see anything in this survey about the Warm Springs themselves. What is the plan for them? I didn't even realize the space north of Warm Springs was considered a park, so it would be cool if that twere a bit nicer (less dirty with litter, less buggy) I couldn't get the drag and drop to work for me. Attracting more visitors is number 8. Salt Lake and using the place as some attraction is not needed. Preservation, caring and saving the area and the antique building are the most important. I could see this park with natural spring pools becoming a destination for individual people and events. To celebrate the indigenous people with ongoing programs. I visit a natural spring pools park in Durango Colorado 2 times each year. When I stated con	e two park areas are categorically never open. This is a true problem for long stays in the park. The p	1

	To celebrate the indigenous people with ongoing programs. I visit a natural spring pools park in Duran	1
I became aware of this project while living in SLC serving an LDS mission. I do not live in the city	I believe the hot spring is an important part of the big picture for the park.	1
	I became aware of this project while living in SLC serving an LDS mission. I do not live in the city	1

I am using an iPad for the survey. Disregard my response to the question about aspects of public art i nstallations - the drag and drop did not work after I selected the first one: sage, bright and illuminated space	1
I am a local artist that would love to have an installation in this beautiful park.	1
I absolutely love the idea of having a hot spring in the area. I honestly live really close to this place, bu t since city Creek Park is nicer, I really don't go to this park. But if they were a hot spring, I would com e and bring my friends.	1
HOT SPRINGS!! Its kind of odd its not mentioned at all. THAT is what should be the center of the entir e park vision.	1
Hot springs represent an unutilized resource - could be a significant local attraction and gathering plac e. Even just foot baths like in Rotorua.	1
Hot springs need to be included in the park plans. It should be available for the public to use for relaxa tion and healing	1
Hot springs have always been a very sacred place to many cultures, and it is sad to see this area bec ome what it is today. I hope to one day see the bath house be revived, and the land respected more.	1
Hot springs are an integral part of healing and relaxing, Needs to be utilized.	1
hooray for Warm Springs it is truly somethig special	1
Homeless camps make it very unwelcoming and dangerous	1
Homeless camp problem	1
Historical building and park, let preserve our past.	1
Help clean up the crime and the garbage in the area	1
Give us a hot spring! That would be a huge amenity to this area!	1
Get hot springs working again in warm springs park	1
From what I understand, there are a lot of unhoused people who camp near this area. That has kept me from feeling safe to go there. We should have spaces that feel welcoming while also not further m arginalizing unhoused people.	1
Focus on revitalizing the warm springs. It has been a neglected gem far too long. The health benefits f or soaking in hot springs is well documented. There is no other site like this in the Intermountain West.	1

Fixing the tennis court would be nice. It's not currently open. Or maintained	1
Fix up the tennis courts. Restore the warm springs.	1
Fix tennis courts and old children's museum building. Make hot springs usable or at least beautified.	1
Find a way to mitigate homeless encampments to make park visitors safe	1
Excited to have the Utah Plunge building restored and usable as a health/wellness center for the community!	1
Don't make it a hipster hang out and keep the nature aspect intact and honor the native people that w ere here first.	1
Dog parks should have two areas, one for large dogs and another for small ones	1
Do not replace tennis courts with pickleball courts! Add lights to the tennis courts and resurface them!	1
Develop the warm springs with changing rooms and rules. We drive 2 1/4 hours to Lava Hot Springs in Idaho	1
Develop the Hot Springs for public use.	1
Develop the hot springs for public use	1
Cut down all the dead vegetation and the dead branches of all the trees	1
Currently both parks are heavily populated by transients and the homeless; because of the high levels of debris and a lack of safety my family doesn't not feel safe using the park the way we should be able to.	1
Create a unique, biologically endemic environment based on historical records for the warm springs	1
Create a natural environment for the springs and water and insure cleanliness and sanitation.	1
Create a natural environment for the springs and water and insure cleanliness and sanitation. Could we make this park more accessible to West side residents by making a highway overpass or un derpass that could be used by bikes and pedestrians? This park is so close to our community but so f ar away because of the interstate.1000 N.	1

Clean up Warm Springs Park.	1
Clean up the trash and used needles	1
Build a Skateboard Park. Downtown lacks a skatepark, I live at 5th East and South Temple and have t o drive out of the city for access to quality skateparks.	1
Build a skate park	1
Bring back Warm Springs	1
Bring back the warm Springs! I'm talking about the building that used to house a pool.	1
Bring back the Warm Springs! Who wants to drive all the way to Idaho for a good soak in a hot sprin g?	1
Bring back the Warm Springs PLunge/restore the building	1
Bring back the warm springs	1
Bring back the hot springs!!	1
Bring back the hot springs! Restore the hot spring building and make the building accessible to the pu blic again!	1
Bring back the hot springs! I'd like a community health wellness center that includes natural outdoor p ools and a spa as a healing place to gather together	1
Bring back the hot springs! I live in Murray and would love to have a nearby place to soak in hot miner al water paired with amenities you would find at a pool (restrooms, showers, locker rooms, etc.). Cryst al Hot Springs & Lava Hot Springs are far away.	1
Bring back the hot springs for public use.	1
Bring back the hot springs and plunge pools based upon the public/private partnership outline of The Warm Springs Alliance which has been gathering input and data for years. The greatest potential of this site flows from its unique features and history.	1
Bring back the hot spring bath house	1
Bring back the bathhouse/ hot springs	1
Bring back the actual warm springs for which the park is named. Replace the tennis courts with pickle ball courts.	1

Biggest issue currently is homeless population which makes it at times very unsafe Being back the hot springs bathhouse! 1 Beautifly warm Springs Park without giving it it a carnival look. It should be a reflective and meditative park that offers wellness opportunities. Beautiful park, but I don't often use it because of the semi traffic on 300 w. They illegally use e-brakes making it incredibly loud, and they speed up and down 300 w., which makes me feel unsafe when crossing the road to get to it. At 75 I soak weekly in the "forbidden stream" Mostly with drunks, stoners and transients. Sure would be nice if you cleaned it up and had a cheap punch-card pass like I have up at Crystal Hot Springs. And have chargers for my EVI Anything you do will be an improvement over the current state. 1 Any updates need to keep or include fenced dog area(s) 1 An ecological restoration of the warm springs (water) and ecosystem. Clean up the water for public use and add the original plants to attract birds. Restoration of the Children's Museum building for community gatherings, art and culture. Amplifying the voices of the Ute Tribe in retribution for the displacement faced. All mentioned, but there should be a plan to address the homeless camps in the area, and along the surrounding hills. I know this is a bigger problem but ties in to safety and overall attract ability and ambience. All this won't matter if we don't deal with the homeless issue, Liberty Park, the Library area, and Pione or Park are often overrun with camps, rendering them unappealing, unattractive, and unsafe for play. The same will likely happen with Warm Springs. Again It is important to focus on the warm springs as a water source that is not cold. 1 Add a place to roller skate 1 Add a place to roller skate 1 A skateboard park or punp teack would be nice. Nature trails would also be appreciated 1	bring back hot springs	1

There is a group that's working to restore the hot spring building and make the springs again accessib le for public use	1

There is a group called Warm Soring alliance that has helpedMe understand the history and importance of the hot springs.	1
There are many areas promoting all sorts of community gatherings, but there is only one hot spring. T his unique place should use as such.	1
The Warm springs REstoration group should be included in shaping the park's design and purpose	1
The Warm Springs Project, the historically native indigenous community and other interested private e ntities.	1
The Warm Springs Alliance, the Capitol Hill Neighborhood Council, and our city council representative Chris Wharton.	1
The Warm Springs alliance, of course. they have been working on this issue for years.	1
The Warm Springs Alliance! This is a perfect opportunity for a public/private partnership to benefit the whole community.	1
The Warm Springs Alliance should be included. The Alliance has worked for the last several years to r ejuvenate the park.	1
the Warm Springs Alliance ought to be included more than they have been. This is a perfect opportuni ty for a public-private partnership.	1
The Warm Springs Alliance has been advocating tirelessly for years to restore the Wasatch Plunge an d make the building a community center and to recognize the parks significance for indigenous histor y. And they have engaged the community consistently.	1
The Warm Springs Alliance (Sylvia Nibley in particular). She has a deep connection to Warm Springs and advocates for the responsible and sustainable rebirth of the hot springs as a community gathering place.	1
The warm spring alliance has been diligently working to bring back this space for years. Please includ e them.	1
The warm spring alliance	1
The two women opening up a bathhouse in SLC. www.glowslc.com	1
the springs by indigenous people, early Mormon settlers, to the Wasatch Plunge pools so many still re member • There is no other site like this in the Intermountain West. The full potential of this singular la ndmark can be realized,	1

The Road Home, Neighborworks, Washington Elementary, West High School, Wasatch Community G ardens, West High, UNP, and Salt Lake Acting co.	1
The residents	1
The neighborhood council	1
The native people of Utah should have input and a strong influence in the revival of this land.	1
The informal dog walker group that meets most nights. Also, some unsheltered people's advocates m ust be involved.	1
The Indigenous people that originally utilized this land.	1
The indigenous communities that used to inhabit the warm springs	1
The indigenous and historic preservation communities, The Warm Springs Alliance and the private/pu blic sectors.	1
The Hot Springs Alliance has done very good work, the Prayer Runners also.	1
The historical society needs to make sure the old building is preserved and made into somthing that the community can use.	1
The Golden Spike Train Club of Utah (Mark Forslund, Jon Thomas), and The Warm Springs Alliance (Sylvia Nibley)	1
The fenced dog park is fine but please don't restrict dog walkers with lease rules in the rest of the par k.	1
The City recreation department might become involved in managing the Hot Springs aspect	1
The Capitol Hill Neighborhood Council, the Warm Srpings Alliance	1
The added density in the neighborhood makes maintaining this open space and old trees extra vital. I t's a great community asset.	1
Thank you for including the Indigenous people in this presentation. There is a strong historic connection to this special place. It was considered a place of healing by the Ute Indians and other native people of the surrounding area.	1
Sylvia Nibley's group	1

Indigenous community	1
Indigenous communities	1
Indigenous	1
I'm sure that they're already being contacted, but the relevant local Shoshone groups should be heavil y involved in this project. I am far more interested in their stories and restoring some site equity to the m, than I am hearing more settler history	1

I would recommend bringing in native plant specialists to help restore native/climate resilient/and edible landscapes in the part.	1
I vote for Sylvia Nibley's WARM SPRING PARK alliance!	1
I think a rec center is needed in the north quadrant of the city.	1
I suppose the Warm Springs Alliance should be involved at a certain level.	1
I know there's an organization devoted to bringing back the hot springs. They should be considered.	1
I know there is a group working on hot spring issues that I hope can get things off the ground. Is the ci ty a part of that? Public healing is much more valuable than public 'art'	1
I know the Warm Springs Alliance is advocating to restore these springs. They would be a great group to include in this effort.	1
I found out about this from the Warm Springs Alliance. They seem to have a good vision for the Hot S pring.	1
Hot springs alliance	1
Hot Spring Aliance	1
Historical society when it comes to the warm springs - maybe the Daughters of Utah Pioneers. Also lo oking into the history of the springs and what services were offered when it was a public springs.	1
Historic preservation and education such as the University of Utah	1
Historians and community ancestors.	1
Health and wellness experts	1
GoSkateUtah	1
Golden spike train club	1
Friends of warm springs	1
Families with special needs	1
Evo	1
Dream land or grind line skatepark builders	1

Dog friendly is important to this neighborhood. We don't have many accessible areas nearby and this park needs to remain one of them.	1
DEFINITELY!! I support a public/private partnership with the Warm Springs Alliance. Their vision is am azing.	1
Community organizers that work with supporting resources and homes to the homeless community th at lives there	1
City Sights	1
CHNC	1
Certainly the indigenous groups and historic society of slc	1
Capitol Hill Neighborhood, the road home,	1
Capitol Hill Neighborhood Council, Warm Springs Alliance	1
Capitol Hill Neighborhood Association, local unions at refineries, Rose Park community groups	1
Capitol Hill Community Council.	1
Capitol Hill Community Council, Warm Springs non profit	1
At least some portion of the park should be returned to native tribes for their use in whatever way they feel is most appropriate.	1
Ask the natives what they would like to see done with the hot springs.	1
Arts and crafts for all ages	1
Any native tribes in the area should be included in the conversation and planning for any indigenous p opulation	1
Any group that can help provide help and housing resources to the groups camping at the park and in the hills above the playground would be helpful in making the park feel safer for children and families to play.	1
All the people who seek shelter in this park	1
