RE: Letter of Support – Salt Lake City Reconnecting Communities Planning Grant 2022

Dear Secretary Buttigieg:

On behalf of Fisher Brewing Company we write in support of Salt Lake City's initiative to address east-west connections across the I-15 and north-south rail corridors, particularly for people walking, biking, and taking transit.

The Granary District of Salt Lake City is a critical east-west corridor in our city connecting downtown, industrial areas, mixed use developments, residential neighborhoods and retail in our small, diverse neighborhood. Our company chose to set up operations in this neighborhood due to the proximity to downtown, residential neighborhoods and a variety of transportation options. Salt Lake City's plan to improve these connections will further assist in the safe, responsible growth of our neighborhood and our company.

We support Salt Lake City's grant application to the federal Reconnecting Communities program to conduct a comprehensive planning project to make improvements to multiple east-west crossings between 600 North and 2100 South. This work will improve our community and increase safe and effective transportation options for our employees and customers.

Sincerely,

Tim Dwyer, President Fisher Brewing Company
