About
ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).
This course is a requirement for some Affiliated CERT positions. Participants must complete the self-paced online course and upload the certificate of completion through Give Pulse by clicking "Register."

Course Overview
ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS). The Emergency Management Institute developed its ICS courses collaboratively with:

- National Wildfire Coordinating Group (NWCG)
- U.S. Department of Agriculture
- United States Fire Administration's National Fire Programs Branch

Course Objectives:

At the completion of this course, you should be able to:

IS Home
IS Course List
Lista de cursos de español
NDEMU Student Portal
Register for a FEMA SID
Critical Infrastructure Security and Resilience
Active Shooter Targeted Violence and Mass Casualty Events Training
Curriculum
