

January 28, 2019

Dear Landon Clark,

During the 2019 road construction season, the Salt Lake City Engineering Division will be implementing roadway and travel improvements along 2700 South, from 1300 East to Preston Avenue (1930 E.). The proposed reconstruction project includes a new pavement surface, improved crosswalks, bike lanes and repairs to sidewalks, access ramps and curb and gutter as needed. In this letter I have included:

1. The project's schedule: April – November 2019
2. A map indicating the project limits
3. A request to attend a community council meeting

The section from Highland Drive to 1300 East may be added as budget allows.

As a recognized community organization, the Sugar House Community Council has 45 days from the date of this letter to provide comments on the upcoming project. This 45-day period will end March 14, 2019. Please let me know if you'd would like our team to present more details about the project at one of your community council meetings, including the date and time of the meeting, and I will get it scheduled on our calendar. Door-to-door updates will also be provided to inform residents about the project.

The project team will also hold a meet-the-contractor get-together at least a week before the project begins at a yet to be determined date and location. If you have any questions about the petition, please feel free to contact me at any time.

Thank you,

A handwritten signature in black ink, appearing to read "Adan".
