

900 South Reconstruction & 9-Line Trail (Lincoln Street - 1300 East)

PROJECT UPDATE: August 2018

The 900 South Reconstruction project will replace road base, make minor utility improvements, repave in concrete, add bikeway and pedestrian improvements (per 9-Line Trail Extension Study), and enhance crosswalks.

Following on the pop-up tests and public input, the City team is working on a revised design, particularly for the Gilmer Drive / 1100 E / 900 South intersection designs and incorporation of the 9-Line Trail.

A draft of this design will be available for public input by the end of August. The City now anticipates completing design in the Fall 2018 and beginning construction in 2019.

Find out more & give us your input.

JOIN US IN PERSON:

Open House / Workshop on Revised Design -
Monday, August 27, stop by between 6-8 pm,
Tracy Aviary in Liberty Park, Chase Mill.

PARTICIPATE ONLINE:

www.slcgov.com/transportation/9Line
Revised design information available by August 28.
