

2700 South Construction Update | April 14, 2019

These are the activities construction crews will be working over the next couple of weeks*:

- Crews will be replacing concrete elements, like curb and gutter, along 2700 South from Preston Street to 1700 East. This activity should take around two weeks.
 - Expect detours for pedestrian traffic as well as one lane, two-way traffic flagging operations to assist crews while they are working.
- Crews will be working to replace and/or repair portions of the sewer near Imperial Drive and Grandview Circle. This work should take a couple of weeks to complete.
 - Expect an eastbound directional detour while this work is going on to facilitate travel around a pump.
- Crews will be lowering existing concrete collars and lids in preparation for the reconstruction of the roadway.
 - Expect one lane, two-way traffic flagging operations to assist crews while they perform these activities.

***Work is expected Monday - Friday from 8 a.m. to 5 p.m. and is subject to change due to weather or unforeseen circumstances.**

The Project team is committed to maintain access to properties throughout construction whenever possible. Certain activities, such as drive approach replacements which don't allow for a split construction phase, could limit access and damage your vehicle while concrete is curing. Please obey all signs and instructions while work on your drive approach takes place. On street parking will be

prohibited starting on Monday April 29. Please plan accordingly. Garbage collection is anticipated to continue as regularly scheduled. We will attempt to assist in any way that we can. Below are the in-field contacts for the project, from the City and the Contractor; please feel free to contact us with any issues you might have.

PROJECT TEAM CONTACTS IN THE FIELD:

- Jeremy Mitchell, SLC Representative: 801-419-9730 | Jeremy.mitchell@slcgov.com
- Justin Simmons, Project Superintendent: 385-221-1133 | Justin.simmons@stakerparson.com
