

## Salt Lake City Corporation

### 900 South Construction Update | June 17, 2019

These are the activities our construction crews will work on over the next two weeks:

- Crews will install storm drain pipe from 1000 East to 1100 East
- Crews will continue to remove curb and gutter between 1100 East and 1200 East
- Crews will upgrade the storm drain system at 1100 East and conduct sewer repairs at these two locations:
  - South of East High School
  - Intersection of 900 South and 1100 East

*\*Work and schedule are subject to change due to weather or unforeseen circumstances.*

Work is expected Monday through Friday and possibly Saturdays from approximately 7:00 AM to 5:00 PM.

#### Safety is our Priority

- We will barricade disturbed areas while crews are not working to help maintain a safe work zone.
- Please keep children from playing on or around the equipment and materials stored on site.
- Parking is restricted within the work zone.

#### Please follow the parking guidelines listed below to prevent tickets while parked on the street:

- Park no more than 12 inches away from the curb
- Park on the right side of the road in relation to the direction you are driving.
- Parking against the direction of traffic is prohibited.
- Double parking on a public street constitutes a safety violation and is prohibited.
- A vehicle, trailer, motor-home, or boat cannot be parked on the same spot for more than 48 hours.
- To be compliant, please make sure that you move your vehicle to another legal parking spot at least once every 48 hours.
- The required clearance between a driveway or fire hydrant and your parked car is 5 feet in both directions, measured along the curb, not from their actual location on the park strip.
- The minimum clearance between a mailbox and your parked car is 10 feet during mail service hours (Mon-Sat 7:00 am – 6:00 pm).

Vehicles parked in areas that require parking permits must have a permit hanging visibly on the rear-view mirror. If you have not received one of these permits, contact Salt Lake City Parking Enforcement at 801-535-6628 or go to [slc.gov/publicservices/organization/compliance](http://slc.gov/publicservices/organization/compliance) for more information.

**If these guidelines are not followed, you may be ticketed by the City's Parking Enforcement Officers.**

If anyone in your household has a disability and needs help accessing or moving around the work zone, please request help from our on-site personnel.
