

1300 EAST CONSTRUCTION UPDATE

AUGUST 2, 2019

Upcoming Work Activities

- Curb and gutter replacement will start on the east side of the roadway on Thursday, August 1. Sidewalk and driveway approach replacement will start on the east side of the roadway on Monday, August 5. We remind residents and pedestrians not to walk or drive on newly-poured concrete, as it requires several days of cure time.
- Over the next few weeks, crews will continue to remove the remaining concrete, on the east and west side of 1300 East, to prepare for the new curb, gutter, and sidewalk.
- Granular borrow placement on the west side of the roadway is now underway. Granular Borrow is the first section of the new road that will be installed.
- Storm drain installation will take place intermittently throughout the closed section of 1300 East, as well as across the 2100 South/1300 East intersection. Intersection work will take place mainly at night. This activity is expected to finish up in the next week.
- Some sewer laterals requiring replacement will be worked on for the next few months. Construction crews will be working with property owners to coordinate this work.
