

1300 EAST CONSTRUCTION UPDATE

NOVEMBER 15, 2019

Please note that though the road is paved, work activities are still taking place, and the road is still closed to public traffic. Crews plan to re-open the road sometime next week.

Upcoming Work Activities:

- Final paving activities for Phase 1, including the areas in and around the 1700 South intersection, are scheduled to take place on Saturday and Sunday, November 16 and 17.
- Final striping activities for Phase 1, including the areas in and around the 1700 South intersection, are tentatively scheduled to take place on Monday, November 18.
- A few utilities still need to be raised, and crews will continue to work on this process intermittently.
- Sign installation will take place intermittently through the end of the week.
- Landscape restoration along the project corridor is underway, and will continue intermittently through the end of November.

Traffic Alerts:

- To accommodate work in the 1700 South/1300 East intersection, west-bound movements **THROUGH THE INTERSECTION** are closed. West-bound movements down 1700 South from Westminster College will continue as usual. West-bound motorists on 1700 South prior to 1300 East will need to detour north on 1500 East, west on 1300 South, and then south on 1100 East to get back to west-bound 1700 South. This detour is expected to be in place up to one more week, though **traffic patterns are subject to change as work progresses**. Resident access will be maintained during this work. Motorists should expect steel plates in and near this intersection while these work activities take place.
- To accommodate paving **on Saturday, November 16, and Sunday, November 17, the 1700 South/1300 East intersection will be COMPLETELY CLOSED to all traffic in all directions, from about 9 AM - 5 PM on both days**. Please take an alternate route.

Safety:

- Pedestrians walking through the construction zone are reminded that even though the road is closed to the public, residential traffic and construction vehicles are still actively driving in the area. For your safety, **please stay on the sidewalk and only cross the road at designated crossing areas**.
- Motorists are reminded to watch out for trucks entering and leaving the work zone. Please make eye contact with operators before passing any equipment. This will help ensure that you are safe and clear to pass. Also, please mind the flaggers that are assisting with the safe flow of traffic.

**Schedule is subject to change due to weather or unforeseen circumstances.*
