

1300 EAST CONSTRUCTION UPDATE

JUNE 19, 2020

Upcoming Work Activities:

- All east-side excavation activities are now complete.
- Crews will begin installing storm drain pipe on Monday, June 22. This installation will begin at 1700 South, and move northward. This process will continue through mid-July.
- After all of the storm drain pipe is in place, crews will begin to place granular borrow along the east side of the road. Granular borrow is the first section of the new road that will be installed.
- Fiber line installation is underway, and will continue through early July.

Traffic Alerts:

- 1300 East: 1700 South to 1300 South is now **CLOSED** to the public. Suggested detour routes include: 2100 South, 1300 South, and 800 South/Sunnyside Avenue to Foothill Drive, State Street, or 700 East.

Safety:

- We remind **residents** accessing their homes in the closed area of 1300 East to drive **slowly** through the work zone and to use caution. Remember, **ONLY SOUTHBOUND**, residential traffic is allowed from 1300 South to 1700 South. Please be attentive to the changing work zone conditions.
- We want to remind people traveling on the sidewalks to **cross the street at designated crossing areas only** to avoid hazards in the construction zone, and to make eye contact with equipment operators so they know you are there.
- During construction, drivers are reminded to watch out for trucks entering and leaving the work zone, and to follow directions from flaggers on-site assisting with the safe flow of traffic.

**Schedule is subject to change due to weather or other unforeseen circumstances.*
