

# 1300 EAST CONSTRUCTION UPDATE

JULY 2, 2020

## Google Fiber Line Work

For your information, there is a nearby ongoing project to install Google Fiber lines in the area from 1300 South to 1700 South, between 1100 East and 1300 East. This work is unrelated to our project, but is taking place concurrently. This project team expects to complete their work in the next 3-4 weeks. If you have any questions or concerns related to the fiber line project, *please contact their team at 877-454-6959.*

## Upcoming Work Activities:

- Storm drain pipe installation is now underway. This installation just passed Logan Avenue, and continues moving northward. This process is now expected to continue through July 20, as the team lost a couple of work days this week due to rain.
- After all of the storm drain pipe is in place, crews will begin to place granular borrow along the east side of the road. They will begin on the south end of the project, near 1700 South, and move northward. Granular borrow is the first section of the new road that will be installed.
- Fiber line installation is temporarily suspended. Crews are expected to return to finish the installation from Sherman Avenue to 1300 South on July 20, which will take about two weeks.
- *In observance of the 4th of July holiday, no work will take place from July 3-5.*

## Traffic Alerts:

- 1300 East: 1700 South to 1300 South is **CLOSED** to all-through traffic. Suggested detour routes include: 2100 South, 1300 South, and 800 South/Sunnyside Avenue to Foothill Drive, State Street, or 700 East.

## Safety:

- We remind residents accessing their homes in the closed area of 1300 East to drive **slowly** through the work zone and to use caution. Remember, **ONLY SOUTHBOUND** traffic is allowed from 1300 South to 1700 South. Please be attentive to the changing work zone conditions.
- We want to remind people traveling on the sidewalks that **this is an ACTIVE WORK ZONE**. When walking through the area, you must remember to look around you, **cross the street at designated crossing areas only**, and to make eye contact with equipment operators so they know you are there.
- During construction, drivers are reminded to watch out for trucks entering and leaving the work zone, and to follow directions from flaggers on-site assisting with the safe flow of traffic.

*\*Schedule is subject to change due to weather or other unforeseen circumstances.*
