

1300 EAST CONSTRUCTION UPDATE

AUGUST 21, 2020

Upcoming Work Activities:

- On Friday, August 21, crews will begin preparations to pour the new curb and gutter on the east side of the road. They are scheduled to begin pouring the new concrete on Wednesday, August 26. They will now start at 1300 South, and move south toward 1700 South.
- Crews are now connecting the west-side storm drain laterals to the new line. This activity will be complete by the end of next week.
- Roadway demolition and excavation on the **west** side of the street, including the removal of the concrete layer of the road, as well as removal of curb, gutter, driveway approaches, and some sidewalk panels, is nearly complete. The team expects to finish by Saturday, August 22.
 - *During concrete removal, residents may experience increased vibrations due to construction equipment. To avoid damages to personal property, please remove fragile/breakable things from walls and horizontal surfaces during construction.*
- On Monday, August 24, crews will begin placing granular borrow on the west side of the road, beginning at 1700 South and moving north toward 1300 South. This process will take about a week and a half. Granular borrow is the first section of the new road that will be installed.

Traffic Alerts

- Residents driving to their homes in the construction zone should expect **changing roadway patterns** over the next week as crews continue shifting traffic to the east side of the road in segments. Stay alert and pay attention while driving through the work zone.
- 1300 East: 1700 South to 1300 South is **CLOSED** to all-through traffic. Suggested detour routes include: 2100 South, 1300 South, and 800 South/Sunnyside Avenue to Foothill Drive, State Street, or 700 East.

Safety:

- We remind residents accessing their homes in the closed area of 1300 East to drive **slowly** through the work zone and to use caution. Remember, **ONLY SOUTHBOUND** traffic is allowed from 1300 South to 1700 South. Please be attentive to the changing work zone conditions.
- We want to remind people traveling on the sidewalks that **this is an ACTIVE WORK ZONE**. When walking through the area, you must remember to look around you, to **cross the street at designated crossing areas only**, and to make eye contact with equipment operators so they know you are there.
- *Pedestrian routes through the area are changing often.* Please pay attention to signs marking where sidewalks are closed, and where you should be walking.
- During construction, drivers are reminded to watch out for trucks entering and leaving the work zone, and to follow directions from flaggers on-site assisting with the safe flow of traffic.

**Schedule is subject to change due to weather or other unforeseen circumstances.*
