

1300 EAST CONSTRUCTION UPDATE

OCTOBER 9, 2020

Please note that although the road is paved, work activities are still taking place and the road is still closed to public traffic.

Upcoming Work Activities:

- Crews are now working to raise utilities, buried deep in the roadway at the start of the project to accommodate asphalt removal, back up to street level. This activity is expected to be completed by the end of the week.
- A microsurface is scheduled to be applied to the entire length of the 1300 East project (2100 South to 1300 South) on Thursday and Friday, October 15 and 16.
 - Microsurface is a pavement surface treatment that will extend the life of the new asphalt.
- Landscape restoration along the corridor is now underway, and is planned to continue through early-November.
- Crews will continue working to replace driveway approaches and sidewalk panels on both sides of the roadway through mid-week next week.
 - *We remind residents and pedestrians to not walk or drive on newly-poured concrete, as it requires several days of cure time.*

Traffic Alerts

- 1300 East: 1700 South to 1300 South **REMAINS CLOSED to all-through traffic AT ALL TIMES.** Suggested detour routes include: 2100 South, 1300 South, and 800 South/Sunnyside Avenue to Foothill Drive, State Street, or 700 East.

Safety:

- We remind residents accessing their homes in the closed area of 1300 East to drive **slowly** through the work zone and to use caution. Please make eye contact with operators before passing any equipment. This will help ensure that you are safe and clear to pass. Also, please mind the flaggers that are assisting with the safe flow of traffic.
- Pedestrians walking through the construction zone are reminded that even though the road is closed to the public, residential traffic and construction vehicles are still actively driving in the area. For your safety, **please only cross the road at designated crossing areas.**
- *Pedestrian routes through the area are changing often.* Please pay attention to signs marking where sidewalks are closed, and where you should be walking.
- Motorists are reminded to watch out for trucks entering and leaving the work zone.

**Schedule is subject to change due to weather or other unforeseen circumstances.*
