

What are Complete Streets?

Complete Streets often differ from many streets we're used to. They are designed so that all travelers intending to use the street—for example, people walking, bicycling, taking the bus, and driving—can more safely and easily get where they need to go. Complete Streets improve safety, increase economic development, and enhance quality of life. For more information, visit www.slc.gov/transportation.

Complete Streets include people-friendly features such as:

- 1 Transit stops
- 2 Lighting
- 3 Curb ramps
- 4 Pedestrian signals or crossings
- 5 Landscaping
- 6 Bicycle lanes
- 7 Sidewalks
