TOTAL Intersections & Spot Improvements 237

Project duplicates may be included as a result of different origins of data; these will be eliminated as the database is refined.

Some projects appear in more than one master plan of the city. Those additional master plans have not yet been fully catalogued, but will be in the future.

This list currently primarily reflects transportation-focused master plans.

This list includes projects under construction, and some projects completed earlier in 2020.

Projects proposed to be funded with FY2021 4th Quarter
Alternate projects for signals; may be integrated with corridors instead

<u>Study Areas - Project Name</u>	<u>PIN DOT</u>	<u>Score</u> (0-23)	<u>Score Tier</u>
These study projects provide technical analysis and public engagement prior to implementation of projects contained in our master plans, or needed to keep city assets in a state of good repair.
