Provide feedback on the draft Vision for the 600/700 North corridor!

600/700 North

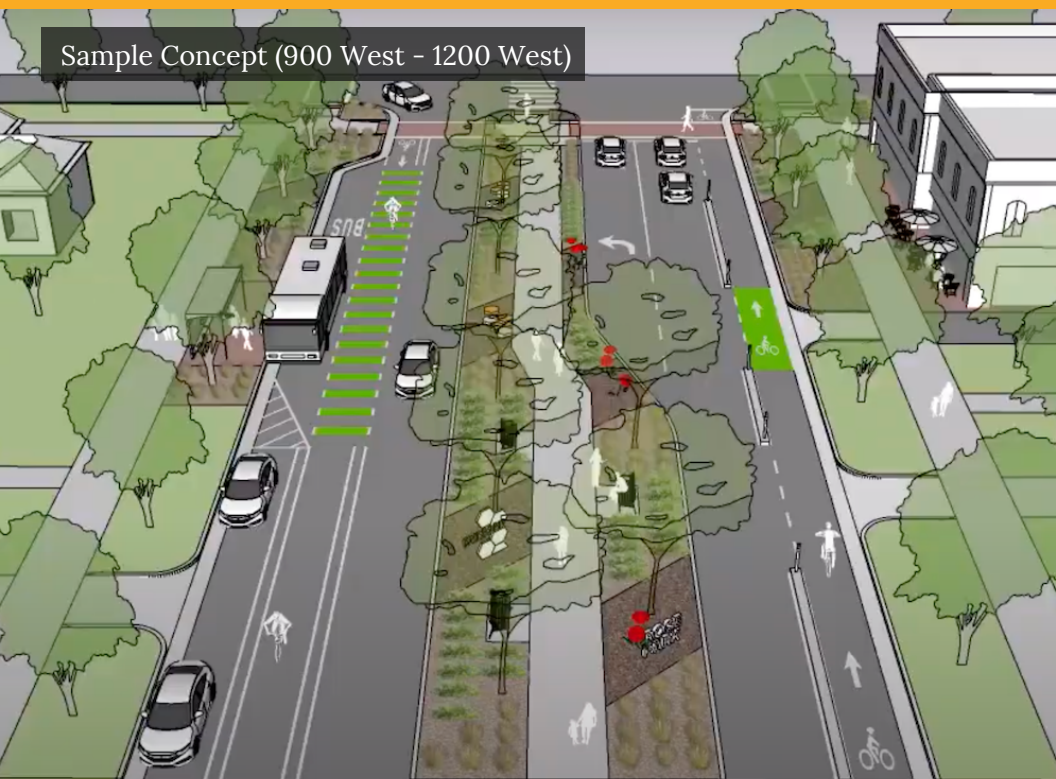

Major project milestone and feedback opportunity! The 600/700 North corridor study has released a draft Vision document here.

The Vision document has transformative ideas for the corridor, which will be built in phases, with spot improvements at crosswalks, traffic signals, and bus stops followed by major roadway reconstruction. Before advancing into engineering design, we want to vet this Vision with the community.

Tell us what YOU think about these ideas before the survey closes!

Sample Concept (900 West - 1200 West)
