

What to Expect During a Water Outage

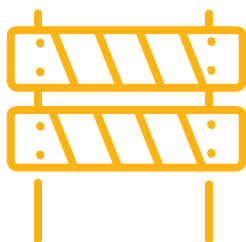

While the water is off

Direct all questions and concerns to SLCDPU

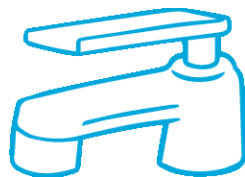

801-483-6700

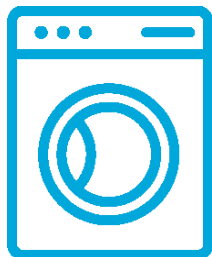

Our emergency dispatch team is available to assist you
24 hours a day, 7 days a week

Do not enter the construction zone or interfere with crews working in your area.

Do not turn on taps or faucets.

Do not turn on dishwashers or washing machines.

Use your personal, emergency water sources such as bottled water, bulk water storage, or water from your water heater.

After water service is restored

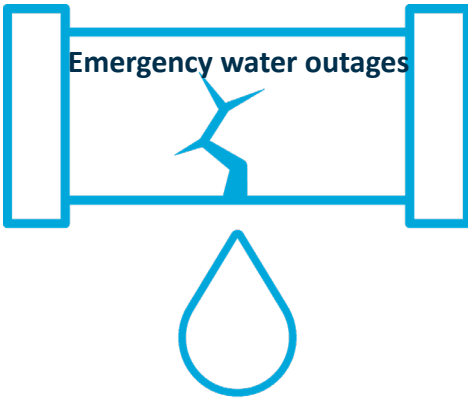

When water service is restored following an outage, you may notice some discoloration in your water. In this case, discolored water should be temporary and results from internal rust and sediment being stirred up after an outage. The discolorations in your water should clear naturally.

What to Expect During a Water Outage

Salt Lake City works to maintain the reliability of our vast water distribution network. Occasionally, due to unforeseen circumstances (like water main breaks), an emergency water outage is required. In the event of an emergency water outage, our crews strive to minimize the impact to our community and to restore water service as quickly as possible.

can occur at any time of day or night. Water main breaks, repairs to fire hydrants, and critical maintenance tasks can all lead to emergency water outages.

Have bottled water or containers of water available for drinking and personal use.

Have hand sanitizer or antibacterial wipes available for cleaning hands.

Prepare for a water outage

Scan this code with your phone's camera for more details about emergency water outages.

Salt Lake City Code 17.16.270 provides SLCDPU the authority to shutoff the water for "repairing, laying or relaying mains, hydrants or other connections, or for any other reason whatsoever."
